After leading his men across the fire zone to the cover, and finding the force there insuf-ficient, he returned over the death traplatent, he resurred over the death trap alone, and was mortally wounded while leading the second rush of Ghoorkas to support the first body of that regiment.

The accompanying picture illustrates one phase, and that the most disagreeable, of the mountain warfare on the Indo-Afghan frontier. The system of firing a "star" shell and then training the guns on the enemy during its brief and buildant explosion is here graphically shown. These alght attacks are calculated to try the nerve of all but the most seasoned soldiers, while under the system of "sniping," brought to wonderful perfection by the fillsmen, every man's life is in his hand at all hours of darkness,—San Francisco Chronicle.

He said he believed the Kansas Pacific railroad. sale of the Kansas Pacific railroad. He said he believed the Kansas Pacific, like the Union Pacific, would bring the ruli amount of the government claim, and thought, as to the Central Pacific, there might be some difficulty, yet he inclined to the opinion that the government would get its debt on this account also paid in full.

It is probable that the president will make no recommedation in his message upon the subject of general arbitration. The fact that he made his views clear on that subject in his inaugural address, and that no arbitration treaty will be pending when the annual message is sent in, makes it unnecessary to say anything further on the matter at this time.
